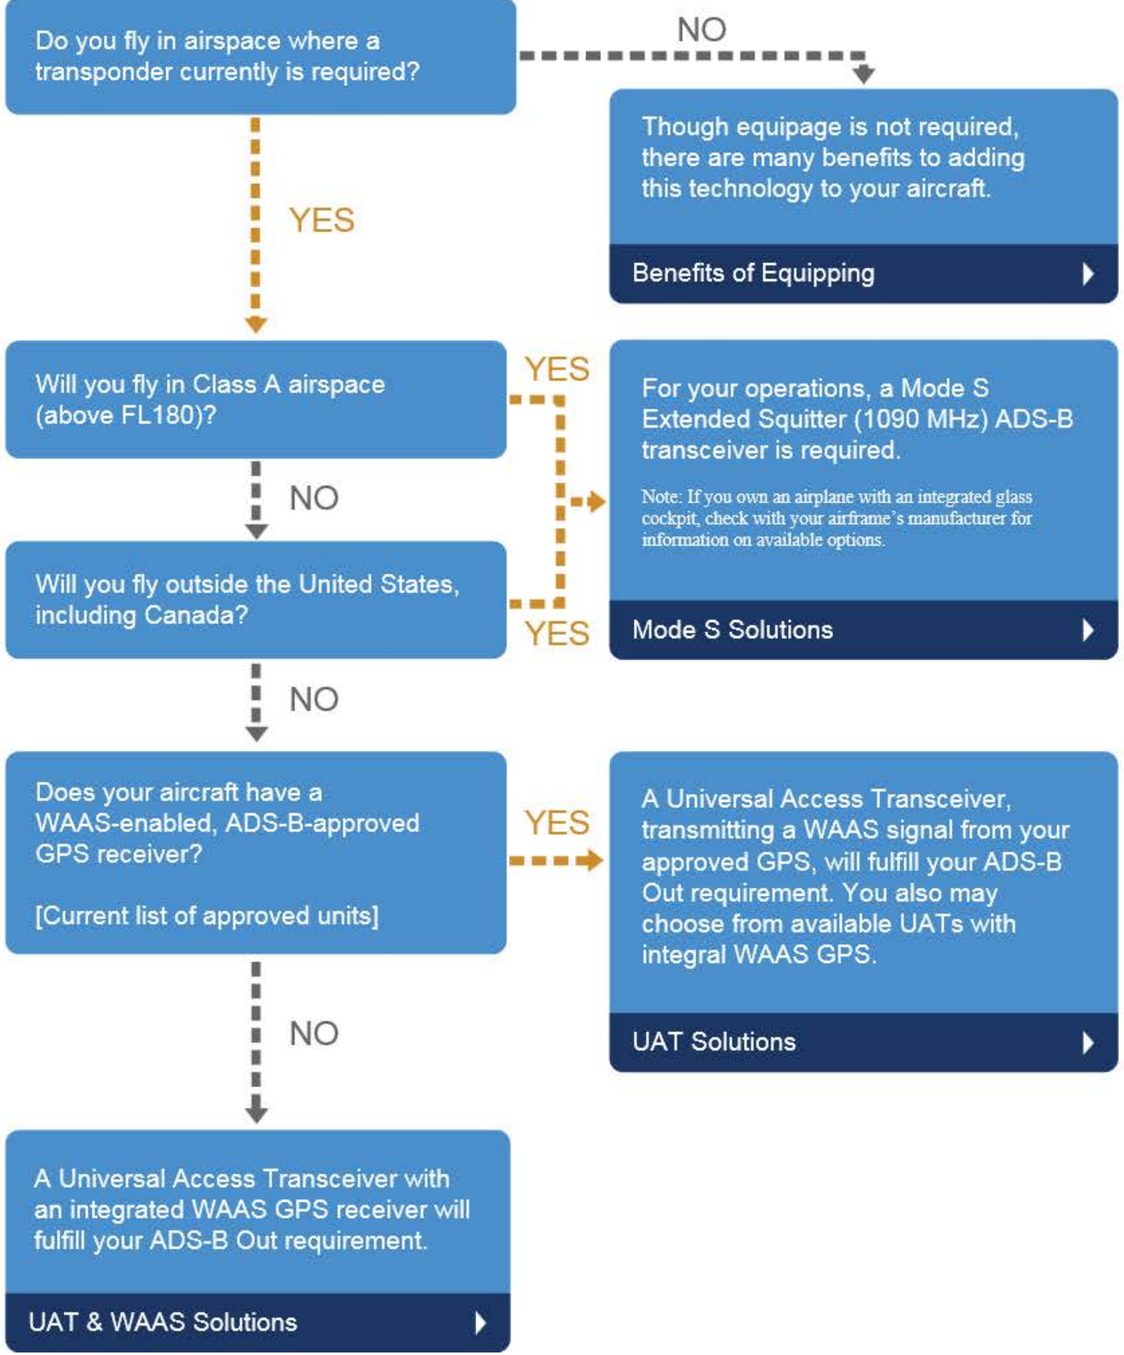
ADS-B OUT SELECTOR

With the approaching FAA mandate for ADS-B Out - required January 1, 2020, in most airspace where a transponder is required today - owners need to understand the options. Our ADS-B selection tool will help you determine the best solutions to consider for your aircraft and where you fly.



As you have seen, there are a variety of ADS-B Out solutions at a variety of price points. New products continue to be introduced; check back here or visit our ADS-B information page for the latest information. www.aopa.org/Pilot-Resources/Aircraft-Ownership/Technology/ADS-B
